

A Smarter Way to Fundraise

Schools play an essential role in helping students grow their talents, passions, and confidence. Beyond the classroom, activities like sports, fine arts, academic clubs, and performance groups provide meaningful experiences that shape young minds. However, these programs often depend on fundraising to succeed. Traditional methods, while helpful, can be time consuming and limited in reach. That's why I've added Vertical Raise to my offerings as a health and wellness advisor. It's an easy to use online platform that makes fundraising simpler and more effective.

Why Online Fundraising Matters

Fundraising isn't just about raising money. Whether it's upgrading musical instruments, funding travel for a robotics competition, or purchasing new uniforms, every dollar makes a difference. Vertical Raise streamlines the process and helps maximize results with an easy to manage system.

What Makes Vertical Raise Different?

Vertical Raise uses email, text messaging, and social media to connect with a broader audience. Its reliable email system ensures messages actually reach supporters, not spam folders. Real time tracking through a user friendly dashboard shows progress, participation, and social media engagement at a glance. Each campaign page is customized to match your program's goals, and dedicated representatives are there to guide the process every step of the way.

How Vertical Raise Works

Fundraising begins with a personalized campaign page tailored to your program's needs. As your fundraising coach, I'll help participants share the campaign through email, text, and social media. Progress is tracked in real time on an easy to use dashboard. Once the campaign ends, funds are quickly delivered via check or direct deposit, secured through an encrypted platform.

For Every Program

Whether it's new gear for sports teams, costumes for fine arts programs, travel expenses for academic clubs, or stage equipment for performance groups, Vertical Raise delivers real results for every initiative.

Let's Get Started

With the right tools, clear guidance, and a track record of success, it helps schools and programs raise more money in less time.

Let's work together to support your school's next big goal. Reach out today and let's get started!
